Innovative and results-driven Full-Stack Developer with extensive experience in designing and implementing scalable web applications using modern frameworks like NEXT.js, React, and Nest.js. Adept at leveraging automation tools such as Playwright to enhance software quality and streamline workflows. Skilled in integrating AI technologies to optimize development processes and operational efficiencies. Proven ability to lead data migration projects, manage SQL Server databases, and develop e-commerce platforms with Oracle Commerce Cloud. Passionate about delivering impactful solutions that elevate user experiences and align with business objectives.

Experience

Full-Stack Developer

IntraWeb Technology, Montville, NJ | November 2020 - Present

- Developed and maintained a decoupled WordPress frontend using NEXT.js and TypeScript, significantly improving site performance and user experience.
- Created custom WordPress themes and plugins with PHP, JavaScript, HTML, and CSS, enhancing functionality and engagement for multiple client websites.
- Collaborated in cross-functional Agile teams using tools like JIRA, Monday, and GitHub, resulting in a 20% faster project delivery time.
- Leveraged GitHub CoPilot and AI tools to accelerate development processes, improving package management, scalability, and overall project efficiency.
- Designed and managed SQL Server databases, ensuring data integrity and optimal performance across all projects.

Full-Stack Developer

ColorStreet, Totowa, NJ | April 2024 – November 2024

- Developed and maintained server-side logic using Nest.js, ensuring high performance and responsiveness to requests from the front-end.
- Implemented dynamic and responsive user interfaces using React, enhancing user experience and engagement.
- Managed and optimized our e-commerce platform on Oracle Commerce Cloud, ensuring a seamless shopping experience for customers.
- Executed complex data migration processes, creating and transforming data structures to be compatible with Oracle Commerce Cloud. Ensured data integrity and accuracy during migrations.
- Designed and generated JSON objects to facilitate smooth data imports into Oracle systems, enhancing the efficiency of our data handling processes.
- Managed and maintained SQL Server databases, ensuring data integrity, security, and optimal performance.
- Implemented Playwright automation testing to streamline the quality assurance process, ensuring reliable and efficient testing of web applications.

Full-Stack Developer

Executive Five Star, Montville, NJ | April 2016 – October 2020

- Directed the development and management of the company's CMS using WordPress, aligning with business goals to enhance content flexibility and user accessibility.
- Integrated the Limo Anywhere API using JavaScript and PHP, streamlining the booking process and improving operational efficiency through automated driver allocation.
- Developed a custom fleet management plugin with an Admin dashboard, optimizing vehicle tracking and operational workflows using HTML, CSS, PHP, and JavaScript.

John Schibelli | Full-Stack Developer
Towaco, NJ 07082 | jschibelli@gmail.com | 862.207.9004

Sr. Front-End Developer
Robert Half Technology, Parsippany, NJ | March 2013 – April 2016
- Built a financial web application using Agile Scrum methodologies and technologies like HTML, Sass, JavaScript, and AngularJS, fostering collaboration with internal and international teams.
- Developed interactive and user-friendly iOS sales aids within the Veeva framework, enhancing sales processes with HTML, CSS, and JavaScript.
- Designed and executed custom WordPress themes tailored to specific client requirements, delivering exceptional user experiences.

Front-End Developer
Level-Nine Creative, Merritt Island, FL | July 2009 – February 2013
- Developed and maintained content management systems like WordPress, overseeing installation, configuration, and troubleshooting. Diligently executed bug fixes, updates, and upgrades to enhance security and reliability of the system.
- Developed comprehensive client website projects using HTML, CSS, and JavaScript, focusing on dynamic and interactive user interfaces, enhancing user engagement and satisfaction through meticulous design and development.

Web Development Program Director
Anthem Institute, Parsippany, NJ | January 2005 – June 2009
- Instructed classes of dedicated subjects of HTML, CSS, PHP, JavaScript, and MySQL to technical post-secondary adult learners.
- Facilitated partnerships with outside organizations including PearsonVUE for trade certification exams for both faculty and students.
- Oversaw campus compliance with Federal institutions and accrediting agencies, including ACCSCT that was required to allow financial aid to students.
- Managed multiple teams of 8 web development instructors on 4 campuses in the New Jersey Tri-State area.
